2024 – 2025

NC II – Bread and Pastry

2024

NC II – Bartending

2023

SUMMARY

Web developer with hands-on experience across website development, IT support, Linux systems, networking, and self-hosted environments. I learned by building, troubleshooting, and maintaining real projects, and I work comfortably from the user-facing website down to the services that keep it running. I value practical solutions, clear communication, and continuous improvement.

EXPERIENCE

Web Development / Information Technology

HundredFold Digital

Jun 2026 – Sep 2026

Supported web development and IT-related work within the organization's technical environment.

- Handled website maintenance, troubleshooting, updates, and day-to-day technical support.
- Worked across web, Linux, networking, and general IT tasks to keep systems and workflows usable.

Web Development

Freelance · Contract Client

Apr 2026 – May 2026

Short-term contract engagement focused on web development.

- Delivered website work to client requirements and timelines, including implementation, testing, and refinement.

Web Development

Freelance · Private Client

Dec 2025 – Mar 2026

End-to-end web development work for a private client.

- Handled development from implementation through troubleshooting and final improvements.
- Built responsive, maintainable web functionality and supported changes throughout the engagement.

Web Development / Networking

Freelance · Client

Aug 2025 – Oct 2025

Web development and networking projects for freelance clients.

- Provided website work alongside basic networking and technical troubleshooting based on client needs.
